INDEX TO VOLUMES 1–50

Aamodt, R. E. co-author of Davidson, R. C., Yang, T.-Y. and Aamodt, R. E. Weakly relativistic nonlinear orbit dynamics for intense ordinary-mode propagation near electron cyclotron resonance. **41**, 405 (1989)

Abarbanel, S. co-author of Frankenthal, S., Friedland, A. B. and Abarbanel, S. Transverse ionizing MHD detonation waves. Part 1. Structure, Hugoniot curves and Chapman-Jouguet limit. **10**, 53 (1973)

Abdel-Gawad, H. I. Dynamical evolution of three-dimensional kinetic electron-beam instabilities. **41**, 1 (1989)

Abdel-Gawad, H. I. On the power law for the wave spectrum. **41**, 333 (1989)

Abdel-Gawad, H. I. On the continuity equation for electrons in microwave-afterglow plasmas. **47**, 193 (1992)

Abdul-Rassak, S. Y. and Laing, E. W. Transport coefficients for an equal-mass plasma in a uniform magnetic field. **50**, 125 (1993)

Abraham-Shrauner, B. Propagation of hydromagnetic waves through an anisotropic plasma. **1**, 361 (1967)

Abraham-Shrauner, B. Shock jump conditions for an anisotropic plasma. **1**, 379 (1967)

Abraham-Shrauner, B. Suppression of runaway of electrons in a Lorentz plasma. Part 1. Harmonically time varying electric field. **4**, 387 (1970)

Abraham-Shrauner, B. Suppression of runaway of electrons in a Lorentz plasma. Part 2. Crossed electric and magnetic fields. **4**, 441 (1970)

Abraham-Shrauner, B. Comment on revised quasilinear equations dealing with wave-number spectra. **5**, 137 (1971)

Abraham-Shrauner, B. and Feldman, W. C. Electromagnetic ion-cyclotron wave growth rates and their variation with velocity distribution function shape. **17**, 123 (1977)

Abraham-Shrauner, B. co-author of Gary, S. P. and Abraham-Shrauner, B. Three electrostatic drift instabilities. **25**, 145 (1981)

Abraham-Shrauner, B. Nonlinear theta-pinch equilibria. **26**, 419 (1981)

Abraham-Shrauner, B. Exact damped sinusoidal electric field of nonlinear one-dimensional Vlasov-Maxwell equations. **32**, 197 (1984)

Abraham-Shrauner, B. co-author of Roberts, D. A. and Abraham-Shrauner, B. Particle paths and phase plane for time-dependent similarity solutions of the one-dimensional Vlasov-Maxwell equations. **38**, 335 (1987)

Aburdzhaniya, G. D., Lakhin, V. P. and Mikhailovskii, A. B. Nonlinear regular structures of drift magneto-acoustic waves. **38**, 373 (1987)

Acharya, R. co-author of Mohan, M. and Acharya, R. Collisional absorption of two laser beams in plasma. **19**, 177 (1978)

Achatz, U. co-author of Schlickeiser, R. and Achatz, U. Cosmic ray particle transport in weakly turbulent plasmas. Part 1. Theory. **49**, 63 (1993)

Achatz, U. co-author of Schlickeiser, R. and Achatz, U. Cosmic ray particle transport in weakly turbulent plasmas. Part 2. Mean free path of cosmic ray protons. **50**, 85 (1993)

Achterberg, A. Covariant ponderomotive Hamiltonian. **35**, 257 (1986)

Adam, J. A. Stability of aligned magnetoatmospheric flow. **19**, 77 (1978)

Adler, A. co-author of Fried, B. D., Adler, A. and Bingham, R. Theory of double resonance parametric excitation in plasmas. Part 2. **24**, 315 (1980)

Aebischer, H. A. and Sayasov, Yu. S. Drift waves and magnetic field oscillations in cylindrical plasmas. **40**, 319 (1988)

Aggarwal, S. S. and Talwar, S. P. Two-stream instability in plasmas for arbitrary propagation. **12**, 395 (1974)

Aghamir, F. co-author of Dooling, J. C., York, T. M., Niimura, M., Aghamir, F., Mead, F. B. and Shieh, D. R. Compact toroid formation, dynamics and lifetime in collisional plasmas generated at high fill pressures. **43**, 419 (1990)

Agim, Y. Z. and Tataronis, J. A. General two-dimensional magnetohydrodynamic equilibria with mass flow. **34**, 337 (1985)

Agim, Y. Z. and Montgomery, D. Dissipative magnetohydrodynamic states with non-ideal boundary conditions. **45**, 371 (1991)

Ahmadi, G. and Hirose, A. Functional calculus in strong plasma turbulence. **24**, 489 (1980)

Ahmed, Z. co-author of Mofiz, U. A., Islam, M. and Ahmed, Z. Nonlinear propagation of ion-acoustic waves and low-frequency electrostatic modes in a dusty plasma. **50**, 37 (1993)

Airoldi, A. C. and Orefice, A. Relativistic dielectric tensor of a Maxwellian plasma for electron cyclotron waves at arbitrary propagation angles. **27**, 515 (1982)

Akama, H. co-author of Nambu, M., Spatschek, K. H. and Akama, H. Test charge potential in the presence of trapped electrons. **22**, 443 (1979)

Akcasu, A. Z. co-author of Belbachir, A. H. and Akcasu, A. Z. Pump fluctuation effects on parametric instabilities in plasmas. **32**, 7 (1984)

Åkerstedt, H. O. Drift-kinetic stability analysis of z-pinches. **41**, 45 (1989)

Åkerstedt, H. O. Corrigendum. **42**, 531 (1989)

Åkerstedt, H. O. Gyrokinetic stability theory of Z-pinches. **44**, 137 (1990)

Åkerstedt, H. O. Kinetic effects on the ideal Alfvén continuum. **44**, 507 (1990)

Akimoto, K., Papadopoulos, K. and Winske, D. Lower-hybrid instabilities driven by an ion velocity ring. **34**, 445 (1985)

Akimoto, K., Papadopoulos, K. and Winske, D. Ion-acoustic instabilities driven by an ion velocity ring. **34**, 467 (1985)

Akinrimisi, J. and Sudan, R. N. Nonlinear Landau damping of electromagnetic cyclotron waves. **5**, 161 (1971)

Aktas, Y. co-author of Willett, J. E. and Aktas, Y. Parametric decay of Langmuir waves in an electron beam-plasma system. **31**, 465 (1984)

Aleksic, N. B., Aliev, Yu. M., Bychenkov, V.Yu. and Vuković, S. Waves with nonlinear polarization due to a self-generated magnetic field in a plasma. **48**, 325 (1992)

Alexov, E. G. co-author of Ivanov, S. T. and Alexov, E. G. Electromagnetic waves in a plasma waveguide. **43**, 51 (1990)

Alexov, E. G. co-author of Ivanov, S. T., Ivanova, K. M. and Alexov, E. G. Rayleigh surface waves along the boundary between a plasma and a metallic screen. **49**, 227 (1993)

Aliev, Yu. M., Bychenkov, V.Yu., Jovanović, M. S. and Frolov, A. A. The kinetic theory of the nonlinear low-frequency response of a collisionless plasma to high-frequency electromagnetic radiation. **48**, 167 (1992)

Aliev, Yu. M. co-author of Aleksic, N. B., Aliev, Yu. M., Bychenkov, V.Yu. and Vuković, S. Waves with nonlinear polarization due to a self-generated magnetic field in a plasma. **48**, 325 (1992)

Aliev, Yu. M., Jovanović, B. M. and Frolov, A. A. Generation of quasi-stationary magnetic fields by external electromagnetic radiation in a cold magneto-active plasma. **49**, 51 (1993)

Aliev, Y. M., Vuković, S., Gradov, O. M. and Kyrie, A. Y. Hydrodynamic theory of surface-wave fluctuations in inhomogeneous plasma. **13**, 273 (1975)

Allan, D. W. co-author of Gimblett, C. G. and Allan, D. W. The electromotive force generated by driven plasma motions. **16**, 389 (1976)

Allan, W. and Sanderson, J. J. Collisional destruction of Bernstein modes in the high-frequency regime. **15**, 41 (1976)

Allan, W. A general dispersion relation for non-uniform magnetized plasmas. **16**, 399 (1976)

Allen, J. E. and Andrews, J. G. A note on ion rarefaction waves. **4**, 187 (1970)

Allen, J. E. co-author of Rosa, R. and Allen, J. E. One-dimensional ion-acoustic modes of bounded plasmas. **4**, 195 (1970)

Allen, J. E. co-author of Stangeby, P. C. and Allen, J. E. Transonic plasma flow past an obstacle. **6**, 19 (1971)

Allen, J. E. co-author of Prewett, P. D. and Allen, J. E. Ion rarefaction waves in cylindrical and spherical geometries. **10**, 451 (1973)

Allen, J. E. co-author of Crow, J. E., Auer, P. L. and Allen, J. E. The expansion of a plasma into a vacuum. **14**, 65 (1975)

Allen, J. E. co-author of Wickens, L. M. and Allen, J. E. Free expansion of a plasma with two electron temperatures. **22**, 167 (1979)

Allen, J. E. co-author of Coates, A. J., Edgley, P. D. and Allen, J. E. Large-amplitude disturbances caused by ion-rich sheath motion. **30**, 275 (1983)

Allen, J. E. co-author of Maciel, H. S. and Allen, J. E. Free double layers in mercury-arc discharges. **42**, 321 (1989)

Allen, J. E. and Skorik, M. A. The Bohm criterion in the presence of radio-frequency fields. **50**, 243 (1993)

Allen, M. A. and Rowlands, G. Determination of the growth rate for the linearized Zakharov–Kuznetsov equation. **50**, 413 (1993)

Alloucherie, Y. J. Nonlinear constant-profile plane waves in a cold plasma under an applied magnetic field. **1**, 55 (1967)

Altman, C. co-author of Suchy, K. and Altman, C. The Maxwell field, its adjoint field and the 'conjugate' field in anisotropic media. **13**, 299 (1975)

Altman, C. co-author of Suchy, K. and Altman, C. Reflexion and transmission theorems for characteristic waves in stratified anisotropic absorbing media. **13**, 437 (1975)

Altman, C. co-author of Schatzberg, A. and Altman, C. Reciprocity relations between currents and fields in plane-stratified magnetoplasmas. **26**, 333 (1981)

Ambrosiano, J. and Vahala, G. Effects of perturbation theory on the spectrum of ideal magnetohydrodynamic and guiding centre plasmas. **21**, 537 (1979)

An, Z. G., Lee, Y. C., Lee, T. T. and Chen, H. H. Cyclotron radiation from a relativistic electron beam in a static magnetic field. **32**, 55 (1984)

Anderson, D., Bondeson, A. and Falk, L. Effect of growth-rate modulation on the nonlinear mode coupling between stable and unstable plasma waves. **18**, 363 (1977)

Anderson, D., Bondeson, A. and Lisak, M. Transverse instability of soliton solutions to nonlinear Schrödinger equations. **21**, 259 (1979)

Anderson, D., Bondeson, A. and Lisak, M. Soliton formation at critical density in laser-irradiated plasmas. **22**, 339 (1979)

Anderson, D., Bonnedal, M. and Lisak, M. Nonlinear propagation of elliptically shaped Gaussian laser beams. **23**, 115 (1980)

Anderson, D. and Lisak, M. Analysis of a generalized nonlinear diffusion equation in fusion plasma physics. **27**, 149 (1982)

ANDERSON, D. Distortion of the distribution function of weakly RF heated minority ions in a tokamak plasma. **29**, 317 (1983)

ANDERSON, D. and LISAK, M. Particle losses due to RF-enhanced pitch-angle scattering into velocity space loss regions. **32**, 273 (1984)

ANDERSON, D. and LISAK, M. Effects of particle trapping on distortion of the distribution function of RF-heated minority ions in a tokamak plasma. **35**, 107 (1986)

ANDERSON, D., ERIKSSON, L. G. and LISAK, M. Collisionless evolution of ion distributions in the presence of ion cyclotron resonance heating. **36**, 357 (1986)

ANDERSON, D., ERIKSSON, L.-G. and LISAK, M. Time evolution of the velocity distribution of neutral-beam injected ions heated by ICRH in a two-component plasma. **39**, 285 (1988)

ANDERSON, D. co-author of LISAK, M., HAMNEN, H. and ANDERSON, D. Excitation of thermonuclear cone instabilities by toroidal equilibrium distributions of high-energy alpha particles in tokamaks. **45**, 229 (1991)

ANDERSON, D. G. M. On the steady Krook kinetic equation. Part 2. **1**, 255 (1967)

ANDRÉ, M. Dispersion surfaces. **33**, 1 (1985)

ANDREWS, J. G. co-author of ALLEN, J. E. and ANDREWS, J. G. A note on ion rarefaction waves. **4**, 187 (1970)

ANDREWS, J. G. The sheath criterion for a growing sheath. **4**, 603 (1970)

ANDREWS, M. K. co-author of FANG, M. T. C. and ANDREWS, M. K. Plasma models of the topside ionosphere and eletrostatic wave propagation. **6**, 567 (1971)

ANDREWS, M. K. and FANG, M. T. C. The propagation of plasma waves near multiples of the electron gyrofrequency. **6**, 579 (1971)
